

NEWSLETTER

Juli 2009

Dear customers,

Shortly we will introduce a new service feature which will set a new standard in quality. In our market this feature is only offered by SMG: the "**Certified Used Machine**" program.

A Certified Used Machine offers significant advantages: The machine is cheaper than a new one and comprises following service aspects with a guaranty period of 12 months:

- replacement of all liquids (hydraulic oil, engine oil, coolant)
- replacement of all hydraulic hoses
- replacement of all wear parts
- renewal of the paint
- replacement of all stickers and writings
- extensive test run

This complete service will be documented by a specially made badge.

If you decide to have your machine serviced according to the "Certified Used Machine" program, we will submit an offer after we checked the condition of your machine and found out the number of working hours of your machine.

Kind regards
