

INVITATION

23.- 26.11.2009

SMG at the BIG5 in Dubai

Dear Sir or Madam, dear customer,

after the great success of the FSB show in Cologne, SMG, as a manufacturer of machines for the installation and maintenance of synthetic sports surfaces and artificial turf pitches, is also represented on the BIG 5 show taking place in the Dubai International Exhibition Centre.

We will be displaying our proven paving machine PlanoMatic P928 with automatic levelling device in the German Pavilion (Zabeel Hall, No. Zabeel E135) from November 23rd to 26th 2009. The P928 is being used worldwide for the installation of athletic running tracks, multi-purpose fields and elastic layers for artificial turf.

Furthermore we will introduce our latest catalogue with 152 pages including a DVD, which shows the complete product range of SMG in a new and clear design.

We cordially invite you to visit our booth and would be glad to welcome you.

Welcome in Dubai, welcome at SMG!
