

passion for sports grounds

Dear customers,

Are you still looking for a Christmas present? We have an idea with which you won't leave anything to chance for 2022. Our range of measuring tools offers you everything you need to precisely measure various artificial turf properties.

Our highlights:

TestSet Turf:

– Price on request –

Tools for determining the filling material in the artificial turf and the total and free-standing fiber length of the artificial turf as well as the ball rolling behavior and the ball bounce height.

[» more info](#)

TestSet Track:

– Price on request –

Tools for examining irregularities, determining irregularities and measuring the thickness of elastic sports flooring for pavement construction.

So if you need to, grab it now before we start the new season. There are two good reasons for this occasion: At the end of the season, we also have some special offers for our new machines, hot deals and mega deals ready for you. Give us a call!

On the other hand, you can still order our entire product range until December 17th at the old list price. From January 2022 we will have to adjust our prices.
