- ALL LATEST AR-MODELS ✓

Dear customers and visitors,

APP-UPDATE: ALL PRODUCTS INCLUDING AR VIEWS NOW AVAILABLE. VERFÜGBAR.

Our SMG app has received an update. All current products are now available including their AR views.

As a market-leading company, we have already made the future topic of "augmented reality" (AR) present in our industry at the last FSB in Cologne.

With the current update, the deceptively real-looking images of the real and complete machine world of SMG are also available via our app. With these visualizations, in addition to useful information about details of technical components, other services can also be offered by SMG in the future. The app can now be downloaded free of charge from the Appstore. You do not need any additional software for this.

We will keep you up to date on this interesting topic, so stay tuned for the future.

The app is now available in the app store and is off.

Your SMG team
